## Policy: Opioid Prescriptions

Approved by: Board of Directors

Date Approved: 08/30/2019

Date Revised: 09/06/2019

### Policy:

Effective September 1, 2019, Texas House Bill 2174 states that for the treatment of acute pain, a provider may not issue a prescription for an opioid in an amount that exceeds a 10-day supply and may not provide for a refill of an opioid.

As a result of Texas House Bill 2174 and in the effort to help curb opioid abuse in the United States, Paris Orthopedics and Sports Medicine (POSM) will follow the procedure outlined below when prescribing opioids.

### Procedure:

- 1. Patients referred by a medical provider to POSM:** The referring provider is responsible for managing all pain medications until a final treatment plan has been recommended by a provider at POSM. The final treatment plan is dependent upon the POSM provider having all of the diagnostic tests available for his/her review in order to make a diagnosis and recommend a treatment plan.
- 2. Patients who are self-referred to POSM and are non-operative:** In the event a non-operative treatment strategy is implemented, and opioid pain management is required, it will be limited to 10 days.
- 3. Post-operative patients:** In the event surgery has been performed by a surgeon at POSM, postoperative opioid pain management by POSM will be limited to 10 days. Careful reassessment will take place for further prescription needs. Much of what we treat is painful, and we want to be sure that your pain and recovery is well managed.
- 4. If the patient has a pain management doctor,** the patient is responsible for notifying their pain management doctor of any procedures that may require alterations in their pain management regimen.
- 5. Patients who have a current pain management contract with an outside provider:** POSM will not assume refilling baseline prescriptions for those patients who are on opiates for chronic pain or under the care of a pain management physician.

**I have read and agree to the Paris Orthopedics and Sports Medicine Opioid Policy**
